AYT'DE MATEMATİK YÜZLERİ GÜLDÜRDÜ

2022 YKS dünkü Alan Yeterlilik Testi'yle (AYT) tamamlandı. Uzmanlar değerlendirdi: Matematik geçen yıla göre kolaydı. 9'DA

MATEMATİK yüzleri güldürdü

[illegible]

ATT was also tested to find out whether the risk groups differed from the whole sample in the way they perceived the usefulness of the program. One-way ANOVA showed that the risk groups did not differ in their perception of the usefulness of the program ($F(2, 100) = 0.00$, $p = 0.99$). Thus, the risk groups did not differ in their perception of the usefulness of the program.
